31.28.1

Expanded Interconnection Space and Facility Rates and Charges * (Cont'd)

(B) Expanded Interconnection Monthly Rates

(1) Cable Space

Cable space for Expanded Interconnection arrangements which are in-service or on order prior to (tariff effective date) and not converted under 28.1.1(H) or 28.6.1(K) preceding are set forth following.

	<u>USOC</u>	<u>Monthly Rates</u> Fixed** (per multiplexing node or virtual collocation arrangement)
New York/Connecticut	SP1CC	\$45.60
All Other States	SP1CC	35.33 Per Linear Ft. per cable#
New York/Connecticut	SP1CD	\$0.22
All Other States	SP1CD	0.16

* See Section 28. preceding for application of rates.

** A microwave customer will not be assessed a fixed cable space charge unless the customer's cables and/or waveguide passes through the serving wire center cable vault.

A customer interconnecting its transmission equipment between its multiplexing nodes or virtual collocation arrangements within the same serving wire center, access tandem or remote node will not be assessed a fixed cable space charge.

When determining the linear footage associated with interconnection of an Expanded Interconnection Arrangement and another Interexchange Carrier point of presence already located in the same Telephone Company building as the serving wire center, access tandem or remote node (i.e., a point of presence established under terms other than those specified for Expanded Interconnection), the linear footage to connect such locations will be measured from manhole zero to the multiplexing node or virtual collocation arrangement.

ATTACHMENT C

CALCULATION OF CONVERSION CREDIT

Calculation for physical collocation arrangement less than or equal to 100 sq ft:

\$47,686 Average FCC Nonrecurring Charge

\$15,147 Average State Nonrecurring Charge

12-year amortization period

30-month average life span of physical collocation arrangements

5.45% Interest Rate

Average FCC NRC Rate / 12-Year Amortization Period = FCC Monthly Amortization
 $\$47,686 / 144 \text{ months} = \331.15

Average FCC Collocation Life * FCC Monthly Amortization = Amount of FCC Collocation Amortized
 $30 \text{ months} * \$331.15 = \$9,935$

Average FCC NRC Rate - Amount of FCC Collocation Amortized = Amount of FCC Collocation Not Amortized
 $\$47,686 - \$9,935 = \$37,751$

Average State NRC Rate / 12-Year Amortization Period = State Monthly Amortization
 $\$15,147 / 144 \text{ months} = \105.19

Average FCC Collocation Life * State Monthly Amortization = Amount of State Collocation Amortized
 $30 \text{ months} * \$105.19 = \$3,156$

Average State NRC Rate - Amount of State Collocation Amortized = Amount of State Collocation Not Amortized
 $\$15,147 - \$3,156 = \$11,991$

Amount of FCC Collocation Not Amortized - Amount of State Collocation Not Amortized = Adjustment Amount
 $\$37,751 - \$11,991 = \$25,760$

Adjustment Amount @5.45% / Adjustment period * 12 months = Annual Adjustment Payment
 $\$25,760 * 5.45\% / 12 \text{ months} * 12 = \$3,480$

Annual Adjustment Payment for physical collocation arrangement less than or equal to 100 sq ft = \$ 3,480

Annual Adjustment Payment for physical collocation arrangement 101 to 200 sq ft = \$ 5,075

Annual Adjustment Payment for physical collocation arrangement 201 to 300 sq ft = \$ 8,366

Annual Adjustment Payment for physical collocation arrangement 301 or greater sq ft = \$10,938

Annual Adjustment Payment for SCOPE bay = \$ 448

ATTACHMENT D

CARRIER NOTICE

Verizon has filed a section 214 application to discontinue providing expanded interconnection through physical collocation in its federal tariffs for the Verizon East states – New York, Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, New Jersey, Pennsylvania, Virginia, West Virginia, Maryland, Delaware, and the District of Columbia. Verizon expects to file tariffs to discontinue this service in the fourth quarter of 2002 upon FCC approval of Verizon's section 214 application. No customer with a federal physical collocation arrangement that is in operation or on order as of the date of the discontinuance will lose that arrangement. Verizon will allow those arrangements to continue under the charges for space and cross-connects in the federal tariffs. In addition, customers will have an option to convert those arrangements to state physical collocation arrangements under the applicable state tariffs and interconnection agreements within 30 days of the discontinuance. DC power and new cross-connects will be provided to both converted and unconverted arrangements under the applicable state collocation tariffs and interconnection agreements. Verizon will continue to offer virtual collocation in the federal tariffs.

The Federal Communications Commission will normally authorize this proposed discontinuance of service, unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments within 30 days after receipt of this notification. Address them to:

Federal Communications Commission
Ref: Verizon Section 63.71 Application
Washington, DC 20554

Comments should provide specific information about the impact of this proposed discontinuance upon you or your company, including any inability to acquire reasonable substitute service.

Customers may also e-mail their comments to the FCC at jmckee@fcc.gov.

I hereby certify that on this, the 16th day of August, 2002, I caused one copy of the foregoing "Section 63.71 Application" to be sent to the following by first class mail, postage prepaid.
